

Mt. Litera Zee School

Jamshedpur, Jharkhand, India

Full design, manufacture and installation of a multi-sports facility with tufted line markings for futsal, tennis, hockey, badminton and basketball.

Date of Project completion: November 2018

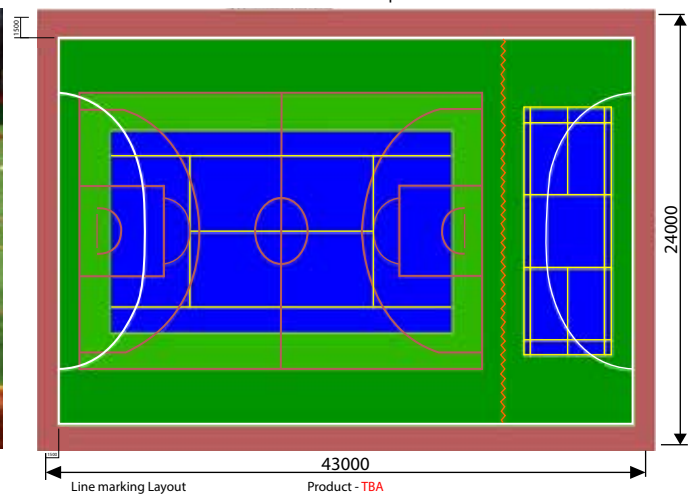

Surface: Tournament

Base Construction: Plain cement concrete

MLZS Jamshedpur

26/06/2017

Mt. Litera Zee Schools is an endeavour by the Essel Group led by Shri Subhash Chandra and in Jamshedpur, this dream has become a reality thanks to Principal Director Mrs. Kabita Agrawal. Apart from providing a highly researched curriculum, her aim was to develop an eco-system that would celebrate and nurture the potential within each child. So the management set about to create a world-class arena that would provide the students with a wide array of athletic opportunities, and, at the same time, be ideal for recreational activities as well.

Owing to the limited space, our design team had an exciting – and challenging – time in creating a multi-playing surface that would accommodate futsal, tennis, hockey, badminton and basketball. The lines were tufted into the production using a burst of colours for

easier demarcation and without unnecessarily taking away from the overall playing experience.

Tournament is an ITF certified surface and withstands heavy use in all conditions and provides a high standard of performance lasting countless years. It requires no water and is virtually maintenance-free and one of the most versatile products for schools across the globe. The yarn from Tencate is heavy metal and lead free and conforms to the highest EN standards. Further, the special sand infill adds to the fire retardant characteristics of the entire system.

In the words of Kabita Agrawal, Principal Director "Global changes, product choices, safety concerns.. discovering those was possible with Alitus Sports, as they made us believe resources could never be a challenge".
