

# Srijan Realty (Greenfield City)

Kolkata, India

Design and installation of a basketball, volleyball and tennis facility along with a maintenance free, "green" jogging track.

**Date of Project Completion:** November 2013

	Tennis Court	Basketball court	Volleyball Court	Jogging Track
Surface/s	Momentum (ITF 5)	Momentum (ITF 5)	TigerPlay	TigerPlay
Base	Plain Cement Concrete	Plain Cement Concrete	Plain Cement Concrete	Plain Cement Concrete

The client wanted to create a sense of "space" in this sprawling, mid-priced apartment complex and provide for an international lifestyle to those who made this their domicile.

The client also wanted a play area that was maintenance-friendly and able to withstand the rigours of weather as the facility was outdoors. The products used were lead and heavy metal free and the yarn was UV stabilized.

The tennis court and the basketball area was created using a product that is stabilized with an infill of sand whilst the volleyball court has a fibrillated product that lends "softness" to the players.

Adding to the lushness and serenity of the area, the jogging track prepared by Altius provides both morning and evening walkers/joggers with a "green track". The facility is a perfect blend of innovation and technology for sustainable living that also looks stunning against the background of an azure blue sky.
