

Symbiosis International (Deemed University)

Nagpur

Full build, construct & install of a basketball & volleyball court along with a futsal field

Date of Project Completion : January 2020

Base Construction : Asphalt (basketball, volleyball)
& Crushed rock (futsal)

Surface : 5-layer acrylic (basketball), EPDM (volleyball),
TigerTurf Atomic Pro 40 (futsal)

Altius Sports is ISO 9001:2015 certified for the design, supply, construction, installation and maintenance of sports surfaces and related civil construction activities and accessories. Naturally, Symbiosis, one of the top universities in Maharashtra, didn't have to look beyond Altius Sports.

The demands of the client were specific, wanting three different products for three different sporting disciplines and all fell into the basket of Altius Sports. An asphalt base was constructed for the basketball and volleyball courts while a crushed rock base was designed and built for the futsal field.

The EPDM granules dispersed in the top layer offer high abrasion resistance as well as energy-enhancing tread

elasticity and excellent acceleration. Our acrylics surfaces are economical and provide great value for money. With confident player footing and a skid resistant surface, they also ensure true ball bounce over the entire playing area. Atomic Pro uses yarn technology to provide the ultimate combination of advanced performance and durability. The fibre has been developed keeping in mind the many fields exposed to constant wear.

This bespoke facility was inaugurated by Shri Nitin Gadkari, Minister of Road Transport and Highway of India and Shipping Ministry of Micro, Small & Medium Enterprises along with Shri Devendra Fadnavis, ex Chief Minister of Maharashtra.
