

All Saints High School

Mumbai (Kalyan) , India

Complete design, construct and build of full-sized football field, athletic track and skating circuit

Date of Project Completion: June 2015

Surface/s: Endurance Play 40 (football), PU on cast in situ shock pad (athletic track, skating)

Base Construction: Dynamic base with sub-soil drainage (football), asphalt base (athletic track, skating)

The management of All Saints High School was always particular about the academic brilliance of its students. However, they wanted to further augment the all-round development of its students and this gave birth to a partnership between Altius Sports and the school whereby a world-class sporting facility was created so that the children could train and compete on a national level.

Product selection for football was critical as the surface had to not only be durable and fast, but, at the same time, it had to withstand long hours of use and thousands of "happy feet". And, all the while, a few factors beyond everyone's control came into play – from congestion at port to unseasonal rainfall and a deadline to complete the prestigious facility.

The team worked day and night and with support from all, the facility was ready for its grand inauguration.

The field is not only ideal for football, but also great as an outfield for cricket and a multitude of recreational activities. It is easy to maintain and durable with great ball roll and ball control.

The track facilities are ideal for practice and training and the skating lends colour to the entire layout as well as a defined surface to skate on. People from all walks of life, including parents and children, attended the grand opening and it was a celebration of sport, or rather, a celebration of the love of the sport.

The guest of honour was none other than "The Flying Sikh", Jeev Milkha Singh, and this is what he had to say about the exiting sporting facilities: "All Saints School is committed not just to quality education but they also have a positive outlook toward sport and building the all-round character of its students. I admire and salute them on their vision and am confident that many a star will be born, thanks to this world-class sporting infrastructure."
