

# American International School Chennai

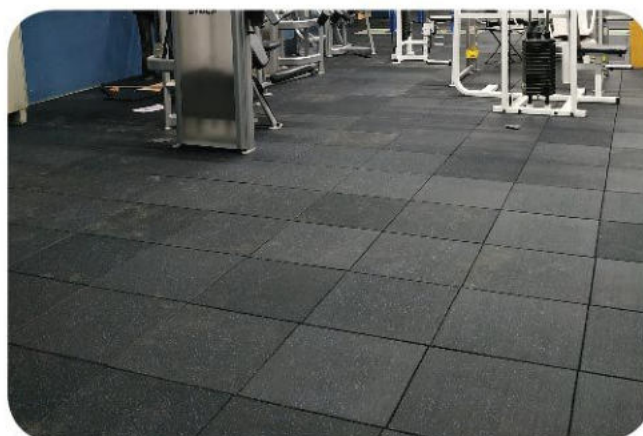

Tamil Nadu

Design, supply & laying of rubber gym tiles as well as re-laying of multi-purpose PU indoor Gymnasium

**Date of Project Completion :** August 2019

**Base Construction :** Concrete

**Product :** Laminated rubber tiles with EPDM (interlocking) & PU (on shock pad)

American International School Chennai is an institution unto itself and has facilities that even the best are unable to boast of – but all for the cause of the development of its students.

Their fitness gymnasium on the 1st level is a high-performance area where middle and high school students train for fitness and stamina. Their equipment is state-of-the-art and has everything for everyone – be it weights, cardiovascular or circuit-training. Naturally, they wanted the base to be both safe for the students owing to high impact, and also as noiseless as possible. The answer was interlocking rubber tiles with EPDM flakes and to ensure an all-round finish, along with high resistance, the tiles were laminated to last that much longer without impairing the quality.

Their existing indoor gymnasium on the ground level was already a facility that was the envy of most schools – a high-performance PU surface on a roll-our pre-fabricated

shock-pad for basketball, volleyball and badminton including retractable bleachers. This project was also done previously by Altius Sports and post completion of 5 years of high-performing surface, the school decided to do the PU layer again.

The same Altius Sports team that had worked on this project previously, meticulously removed the existing layer before bringing on the fresh layer, complete with line-marking and set the surface such without impairing upon the existing sleeves or dimensions.

Altius Sports provides a solution for virtually every facet when it comes to sport infrastructure. We design, construct, manufacture (through our exclusive partners), install & maintain. Our products are best-in-category in terms of certification, value for money and number of hours of play. We simply call it the “love of the sport.”
