Kolkata, W.B.

Design, supply and installation of synthetic turf for futsal and cricket

Project completion: June 2020

Base: Cement (PCC)

Product: Atomic Pro 40 (FIFA Quality Pro, FIFA Quality, FIH Multi-sport) & Premier

Ankit Agarwal believes that everything in life starts with a blob – akin to picking up the paintbrush and putting a lobe of paint on paper. This rooftop venue is part of a sprawling community space that has been specifically developed to provide a refreshing lifestyle to the youth of today where you have co-learning, co-working and co-playing in the same environment.

The uniqueness of this venue is that here people meet, work, form companies, teach and learn skills; they play a sport and, most importantly, create experiences worth narrating and sharing with those around them at large.

To paraphrase Ankit Agarwal – “Altius Sports was the best choice for us as it offered the widest range of turf products, especially those suited to our needs. They catered to our unique design of

cricket and football friendly turf such that both sports could be played without compromising on the experience and Altius Sports ably delivered”.

He goes on to say “Usage of the turf has been a brilliant experience for the clients as well as for me, personally, as I am an ardent cricket enthusiast and play almost every day for a couple of hours myself. We would highly recommend TigerTurf from Altius Sports for a smooth experience from the time you decide to set up a turf till the time you need to expand and further develop your facilities”.

This facility has a synthetic cricket wicket in the centre and a 40mm synthetic turf all around that acts nicely as an out-field and, at the same time, is brilliant for football. The cricket turf in the centre allows for both ball bounce and spin, and consistently at that too. We owe it all to our love of the sport.
