Shillong, Meghalaya

**Supply and installation of TigerTurf Championship 40 for volleyball court & acrylic surface for a tennis-cum-basketball court.**

**Date of project completion:** November, 2023

**Surface:** TigerTurf Championship 40 for volleyball & ITF certified 8 layers acrylic system for tennis & basketball

This training centre of the Indian Army is a matter of pride for all of us and the aim of this centre is to transform the defenders of our great nation into physically fit, mentally robust and professionally competent soldiers.

Our team installed a volleyball court using TigerTurf Championship 40 which is made using our unique rhomboid shaped fibres that remain upright giving consistent playing performance. When compressed, these fibres twist rather than bending so they continue to bounce back upright, making the surface perfect for high utilisation fields. Not only that, this product is also FIFA Quality and FIFA Quality Pro certified.

We also installed an ITF certified 8 layer, acrylic court for both basketball and tennis using different coloured line markings (white for tennis and yellow for basketball). This acrylic surface is manufactured from premium quality resins and an overall good value in terms of investment.

The client was so satisfied with our project execution that they gave an appreciation letter as well during the site handover. In the words of the client:

"It is certified that Shri Eeshwar Chauhan of Altius Sports & Leisure Private Limited single handedly executed an 8 layer synthetic basketball and tennis court of very high quality and standards at our Training Centre (Altius Sports is not mentioning name and location owing to security reasons). He has worked in these challenging climatic conditions with sincerity and dedication. This certificate is an appreciation of his professional competence and dedication to the company".
