

Makers Towers

Mumbai, India

Multi-play Area

A multi playing surface (sand-dressed) for tennis and futsal.

Surface : Trophy (ITF 5 and FIH National with shock-pad)

Date of Project Completion: May 2013

Base Construction: Plain Cement Concrete

An elite apartment complex with the most stunning views of the Arabian Sea, Makers Towers in Mumbai is one of the most premium pieces of real estate in Asia.

A key consideration for the apartment's management was how to mitigate the effects of high intensity rainfall experienced during the monsoon season. With TigerTurf's quick-drying and all-weather surface, the facility has been specifically engineered and customized according to the client's vision.

"Visually pleasing and installed to perfection, the facility with its uniqueness stands unparalleled", added Bhavin Kothari, a resident of Makers Towers.

The playing area has transformed the place from a dust bowl into an aesthetically attractive area that has provided the residents with a world-class surface.

A realistic, beautiful and an authentic alternative to natural grass, Tigerturf's Trophy is a great all-round, multi surface that is budget-friendly and can accommodate a host of games and activities.
