

# Rail Wheel Factory

Bangalore, Karnataka

Complete design, build & install of FIH National category approved mini-hockey field (with full-size practice D) along with shock pad including fencing & lighting.

**Date of Project Completion :** February 2019

**Base Construction :** Asphalt

**Surface :** FIH National category TigerTurf Trophy

**Size :** 12,105 Sq.Ft.

Rail Wheel Factory (RWF), formerly known as Wheel and Axle Plant, is situated in Bangalore, Karnataka, India. It is a state-of-the-art plant, meeting bulk of the requirement of wheels, axles and wheel sets for the Indian Railways. RWF strives to build successful and lasting relationships with its customers by consistently exceeding their expectations – and one way of doing this is by ensuring the well-being of its employees and what better way than sport.

Altius Sports won the project that entailed design and layout of the facility, along with fencing and lighting to create an enclosure that was safe and playable 24x7. A cast in-situ layer was put in between the asphalt and the TigerTurf to ensure adequate cushioning and playable characteristics as per the FIH norms.

The texturized monofilament is a dense product and the system is sand-dressed and ideally suited for hockey without the need for maintenance (or watering). Not only that, this product is multifarious in its use and is a great playing surface for basketball, tennis, netball and athletics. To top it all, it comes with an unmatched warranty of 7 years.

This fantastic facility, complete with a full-size D for practice, was inaugurated by the GM, Rail Wheel Factory along with other eminent dignitaries from the Railways and the Karnataka Hockey Association including ex-players of the Indian Hockey team. The inaugural match was well fought and the winner was the game of hockey, thanks to TigerTurf, Official Suppliers to Hockey Australia.
