

Rustomjee Pinnacle

Mumbai

Mini-sport along with fencing and netting

Date of Project Completion : April 2019

Base Construction : Concrete

Surface TigerTurf Premier

In every real estate project, no apartment complex is complete without a play area. For the 800+ residents, TigerTurf Premier was used as a multi play area with line markings for basketball and futsal.

Established in 1996 and with over 11 million sq. ft. of commercial & residential space built, Rustomjee are known for providing world-class amenities and luxurious apartments. Altius Sports, an ISO 9011:2015 certified company in sport infrastructure, was the natural choice for this turnkey project.

Tigerturf Premier is a short pile turf, that is heavy metal free and UV stable. It is a 100% polypropylene fibrillated product and

uses a superbond latex compound for turf backing and superior tuft lock.

The product is a non-infill one, with a dense machine gauge of 4.7mm and is direct stuck on the base, making it secure and prevents any movement of the product upon the base that could lead to any risk hazard.

The entire project was completed on time, adhering to the highest quality standards and norms and we are very pleased to share the feedback, as received from the client and the residents, that they are "happy using this facility, especially the children who love playing on TigerTurf."
