

# The Cage

Nashik

Pay n Play facility

**Date of Project Completion :** May 2019

**Base Construction :** Concrete

**Surface** TigerTurf XP Pro 40

The need to remain physically active is an emerging factor in ensuring a healthy lifestyle. Not just satisfied with gymnasiums or walks, people want to indulge their skills and what better way than playing a sport – for this brings entertainment, team-work and bonding to the fore.

The client, being a sports and fitness enthusiast himself, wanted to build the first sporting facility at Nashik to not just live his dreams, but to also cater to the youngsters, the corporate crowd and the sports lovers of the city.

XP Pro is manufactured and tested to meet the highest norms and standards when it comes to usage, playing conditions and all attributes of the game that is loved both by the officials and the players. This utilises the TenCate Blade+ which is the best high-use, multi-use turf in the world.

A 100% fibrillated polyethylene yarn, the TigerTurf XP has special HR formulation that makes it cooler than all conventional yarn. Further, its fibrillated structure ensures that there is less splash with the infill and it encapsulates the same better than any other product available in the market.

Not only that, this yarn comes with an unlimited yarn durability warranty and is also footwear friendly. Thus, it means less monitoring of your play area and maximum revenue for the usage is unlimited.

XP is the ideal and natural choice of those who love the game, want to play uninterrupted, have a playing turf that is the latest in yarn technology, and, especially in “pay n play” facilities, you can monetise the consistent playing characteristics, extremely high usage and the unmatched play of TigerTurf – brought to you by Altius Sports!
