

Babaji Vidhyashram School

Chennai

Design, supply & installation of TigerTurf for a futsal ground (football 7's & 5's)

Project completion: September, 2020

Product: Crushed stone base

Surface: Atomic Pro 40 (FIFA Quality Pro, FIFA Quality, FIH Multi-sport)

A passionate and experienced team of community leaders who understand the value of childhood and importance of education, have come together as a school formation committee and the result is this august institution.

The management strongly believes that learning can be inspired by almost anything and everything around children. Nature, people, colours, technology are all a part of this learning and they ensure that this is reflected in their holistic and refreshing approach in their classrooms.

Our FIFA certified Atomic Pro 40 naturally was the correct "FIT" when it came to sports, the outdoors and interacting with the environment the healthy way. This sprawling field can further be divided into two smaller fields, thus enabling more enthusiasts to both practice and play. In fact, the management has made this beautiful synthetic turf field available to the local community after

school hours and even on weekends.

Atomic Pro 40 uses yarn technology to provide the ultimate combination of advanced performance and durability. The fibre has been developed keeping in mind the many fields being exposed to constant wear. Its ribbed surface diamond shape makes for the most advanced, ultra-durable grass fibre within its respective market segment with resilience, increased comfort and safety as prime attributes.

With projects panning not just the length and breadth of the country, but also the entire SAARC region, Altius Sports is ably staffed with a professional in-house team of designers, engineers and installers that have been trained specifically for sports infrastructure. Today we are not only an ISO 9001:2015 certified company in the realm of sports infrastructure but also an FIH Certified Field Builder. For us, it's simply the love of the sport.
