Be it fencing, lighting, accessories or even managing venues, we offer a one-stop solution

WHO WE ARE

Altius Sports & Leisure Pvt Ltd is a sports infrastructure development company providing bespoke, certified, sports surfacing for all sporting disciplines for stadiums, sportsgrounds, school playgrounds, sports academies, children's play areas as well as synthetic turf for residential lawns and commercial landscaping.

Our New Zealand made TigerTurf range of artificial turf for cricket, football, hockey, tennis, golf, bowling and artificial lawns are world-class, top performing surfaces. Altius Sports designs and manufactures (through our principals TigerTurf), constructs, installs and maintains high performance, synthetic sports turf using TigerTurf's industry leading innovation, research and development. When you choose TigerTurf, you benefit from a well tested, highly durable and maintenance-friendly product.

Our product range also includes World Athletics certified running tracks as well as certified vinyl flooring, interlocking tiles and PU systems. When it comes to our Australian made acrylic courts, we bring the best to India these surfaces that are ideal tennis, basketball, skating and more.

Be it design, engineering consultation for your sports facility or a complete turnkey project including building-works, interiors, galleries, seating, lighting or accessories – we provide a seamless, one-stop solution catering to all your needs. And we owe it all to our love of the sport!

Cricket

- // Consistent and even surface with both fantastic ball bounce and turn
- // All-weather, quick-drying surface
- // Ideal for both indoor and outdoor cricket
- // Maintenance free
- // Accommodates high volume of players
