

# Dorjiling Active

Paro (Bhutan)

**Design, supply and installation of synthetic turf for futsal field along with supply of nets for fencing**

**Project completion:** March 2021

**Base:** Dynamic stone base

**Surface:** Championship 40 (FIFA Quality, FIFA QualityPro, FIH Multi sport)

Dorjiling Active is a futsal pitch established in the heart of the beautiful Paro valley with a noble objective of promoting a healthy lifestyle through football in particular. It offers one of the best outdoor futsal pitches in Paro owing to its attention to detail, especially in creating an authentic "football" experience. And this natural feel has been ensured by the use of TigerTurf. The venue caters to all age groups and works toward engaging the youth in a more meaningful activity which not only inculcates discipline and teamwork, but also develops and enhances their skills. Mr Dorji Khandu, an entrepreneur and the visionary behind this field, has a lot to say.

"I feel setting up of such quality sports facility is the need of the hour given the growing number of youth population and also office goes within Paro. And considering the tremendous passion for the football in our country, I believe we could use futsal as one of the ways to develop the football skills of our youth. Additionally, the existing facility would be essential in terms of engaging community and promoting sports within and beyond the district".

"From my personal experience, one of the most important aspects

in setting up a quality pitch is the installation of high standard artificial turf. While looking for a supplier, even though I have come across several companies supplying sports materials in the region, I must say I am fortunate to have selected Altiuss Sports & Leisure Pvt Ltd for not just their high-quality turf but also for their all-round experience from design to construction to installation. I must admit that I am fully content with the quality of materials and services they have provided and most importantly, the visibility of professionalism in them".

"The pitch was completed towards spring this year (2021) and it is under operation at the moment. We have players from different walks of life using the pitch for matches and also for training purpose. The experience with the TigerTurf pitch is amazingly wonderful so far. The performance of TigerTurf Championship 40 is excellent and the overall feedback from the players is very positive".

And hats off to the team who helped design, supervise and install this field, following all protocols and quarantine norms. No wonder our Championship TigerTurf is the field of champions. Here's to our love of the sport.
