With its theme of 'Play Way Learning Environment', Indus Valley World School is a play school, primary school and middle school aimed at enriching students with an all-round development from all social and cultural backgrounds. The school wanted to infuse a spirit of competitiveness and to bring out the best amongst its students and Altius took the responsibility to create a "space where the children could interact with the environment".

TigerTurf's specially cushioned surfaces are less stressful on children's knees, ankles and backs and decrease playground injuries. The surface is easy to maintain and is playable all-year round.

The cricket wickets are ECB certified and all-weather, mimicking international quality pitches which is great for both ball-bounce and spin.

Pro putt is one of the most technical surfaces for golf and is useful for putting and for chipping over short distances. This has been developed keeping the 'grass conditions' of the Augusta Masters in mind. The Summer Envy 35 provides a natural collar for the putting area and is always 'green'.

We call this TigerTurf LIFE - Learning In Fun Environments.
