

# TBC Park

Durtlang, Mizoram

Supply & installation of Futsal Pay n Play facility

**Date of Project Completion** : December 2019

**Base Construction** : Dynamic crushed rock

**Surface** : TigerTurf Atomic Pro 40

Set on a hilltop with a breath-taking view, this “pay n play” facility has encapsulated the interest of people in Mizoram where Futsal has also gained prominence in the last 5 years. More and more players have shown interest in futsal as it more accessible for different age groups. Moreover, there is a lack of designated futsal playing areas in Mizoram and players are having difficulty practicing or playing. With this in view, the client decided to build a futsal arena in Durtlang.

After extensive research into the market for artificial playing surfaces, the client decided upon Altius Sports. What impressed him the most was our wide range, especially for futsal, and also the fact that our playing surfaces were all of international standards and certified by international governing bodies. He was in fact spoilt for choice as to what to choose for this facility. Not to mention the service standards of Altius Sports where our love of the sport reigns supreme.

The client concedes that it is now a reality of them being able to access a world class facility in their own backyard. The turf is exceptional and the futsal players using are really excited. The

cushioning and ball bounce is just right for playing and even the senior players have found the surface to be incredibly “comfortable and smooth”, akin to playing on natural grass.

This facility is available to everyone interested in playing futsal and at a very nominal rate. Professional players, recreational players, children, women and girls alike, are all making the most of TBC Park. The owner, Lalrinpuia Tlau, not only owns and runs a coaching academy for JEE & NEET aspirants, but is also an executive member of the Futsal Association of Mizoram (FAM), which is affiliated to the Futsal Association of India (FAI) under the governance of Association Mundial de Futsal (AMF).

The Atomic Pro series are not just certified for FIFA Quality & FIFA Quality Pro, but also as FIH Multisport. It uses yarn technology to provide the ultimate combination of advanced performance and durability with fibre that has been developed keeping in mind the many fields exposed to constant wear. Its ribbed surface diamond shape makes for the most advanced ultra-durable, grass fibre within its respective market segment and has an astounding warranty of 20,000+ playing hours!
