

Ambuja Utalika

Mukundapur, Kolkata

Supply and installation of TigerTurf surfaces for various sports courts in a prestigious housing complex in Kolkata, the City of Joy.

Year of project completion: Feb, 2020

Base: Plain cement concrete

Surface: TigerTurf TigerTurf Premier for cricket, Tiger Turf Atomic Pro 40 for badminton, TigerTurf Trophy for tennis and TigerTurf Tournament for multi sports (futsal and basketball)

Ambuja Utalika The Condoville in Mukundapur, on the southern fringes of the city, is a ready-to-move-in housing society. Here, life celebrates nature's quintessential elements, wrapped in comfort, sophistication and luxury. The exclusive handcrafted amenities – both indoors and outdoors, a 4-storey residents' club and an exquisite terrace space – are designed to provide an unparalleled experience.

As part of their outdoor amenities, we have installed four different sports surfaces: a cricket practice pitch, a tennis court, a badminton court and a multi-sports arena for futsal and basketball facilities.

For the cricket practice pitch, we have installed TigerTurf Premier, cricket surface that provides a realistic turn and bounce and is non-slip. The tennis court features TigerTurf Trophy which is an ITF-certified surface providing consistent performance.

The badminton court has TigerTurf Atomic Pro 40 and its diamond-shaped fibre provides the ultimate combination of advanced performance and durability. The multi-sport area uses TigerTurf Tournament which is medium pile, sand-filled, fibrillated multi-sport surface is extremely hard-wearing and low on maintenance. It provides excellent grip and traction for players, is glare-free and the coloured lines are all tufted into the product, thereby eliminating trip hazards and maintaining consistency of play.

We simply call it the love of the sport.
