Maldives

TigerTurf Classic synthetic turf for both recreational and professional tennis

Date of project completion: October, 2022

Surface: Classic

Base construction: Dynamic stone base

Maldives, also known as The Treasure Island, is famous for its scenic beauty, pristine beaches and fabulous waters. Dotted with islands, each with its own breath-taking view and resorts that match up to the lifestyles of the rich and famous, we added a little fun element as well in the guise of our maintenance-friendly, TigerTurf synthetic turf tennis courts.

TigerTurf Classic is a great choice for tennis courts in schools, apartments, resorts and recreational facilities. It is a medium pile, sand filled, fibrillated tennis surface, designed for tennis, and also multi-sport use.

TigerTurf Classic produces a medium ball-bounce and spin, leading to a more relaxed game of tennis. It is a hard-wearing surface and excellent to practice and hone your skills. Players have good traction and it is a great non-slip surface that is ideal for play in every kind of weather. What is more, the yarn used in Classic doesn't reflect light into your eyes when wet!

The complete installation was done by the in-house installation of Altius Sports, totalling 4 tennis courts across 3 different locations. Our forte extends to design, construction, installation and maintenance and TigerTurf is brought to the SAARC region exclusively through Altius Sports.

Welcome to our love of the sport!
