

PUNJAB CRICKET ASSOCIATION

Mohali, Punjab

A complete turnkey project for indoor practice pitches

Date of project completion: August, 2020

Surface: TigerTurf Premier & TigerTest for the cricket pitch and TigerTurf XP Pro 40 for the outfield

Base construction: Plain cement concrete and Kota stone

The Punjab Cricket Association (PCA) oversees the development and management of cricket in the State of Punjab and the Union Territory of Chandigarh. Previously, it operated primarily from the residences of its office bearers, but since 1992, it has established a top-tier cricket stadium in Mohali, equipped with world-class facilities. The PCA has since relocated its headquarters to this stadium, and its cricketing activities span across Punjab and Chandigarh. In the mid-1990s, a marshland on the outskirts of Chandigarh was transformed into one of the finest cricket grounds, globally. Renowned for its sporting wickets, verdant outfield, spacious dressing rooms, exceptional practice amenities, and cutting-edge gymnasium, the PCA Stadium has earned acclaim from cricketers worldwide.

TigerTurf remains the product of choice as we have a separate range specializing and devoted to the love of cricket. To provide a diverse range of batting surfaces, and both top notch, we've installed TigerTurf's Premier as well as TigerTest. For the outfield, we've used our exclusive patented yarn with HR formulation to make it one complete cricketing experience.

PCA was among one of our many installations completed just before the onset of the COVID-19 pandemic, which involved the setup of four practice pitches and the replacement of their existing base and lighting system.

TigerTurf Premier cricket surface is manufactured specifically for cricket pitches and installed for a wide range of playing situations – for match play, in the nets, indoor training facilities and to provide all-weather surface. TigerTurf TigerTest is perhaps the most versatile, light weight, non-infill product in the turf industry and not only offers excellent bounce and swing but also endorses spin, thus helping enhance skill and technique.

A complete indoor cricket practice solution was provided here which also meant refurbishing the existing base as well as the installation of new lights so that the arena may be put to use day and night, and cricket remains the winner. With the specially made cricket pitches from TigerTurf, you can be rest assured that your product has a much longer lifespan without the maintenance costs while giving you non-stop cricket at the same time. Here's to our love of the sport.
