

Marang Gomke Jaypal Singh Munda Astro Turf Hockey Stadium

Ranchi, Jharkhand

A complete design & build TigerTurf FIH certified Global category hockey field

Year of project completion: 2023

Surface: TigerTurf Wett Pro

Base construction: Asphalt

Marang Gomke Jaypal Singh Munda Astro Turf Hockey Stadium was initially built in 1990 and is located in the Morabadi area of Ranchi. It is said to be the newest and best stadium in India and what is more, the Women's Asian Championship Trophy was held at this stadium. Indian beat Japan 4-0 in the final to clinch the trophy with the goals scored by Sangita Kumari, Neha Goyal, Lalremsiami and Vandana Katariya!

TigerTurf Wett Pro is made of a unique texturized monofilament yarn that ensures a grain-free playing surface. This implies that the ball and stick travel smoothly in all directions. The hockey turf is trip glued on to the pad, and not loose laid, which means there are no bubbles or wrinkles on the playing surface.

What is more, the top of the D is tufted into the turf during manufacturing, which means that the most critical and exciting area on the field does not see any unnecessary seam movement!

Tested to FIH Global standards from FIH Preferred Supplier TigerTurf and the entire turnkey project executed by Altius Sports, an FIH certified Field Builder, this is a true testimony to our love of the sport.
