Supply and installation of Australian-made acrylic surface for basketball & volleyball

Year of project completion: November, 2024

Base: Asphalt

Surface: ITF Certified acrylic surface

Jawaharlal Nehru Medical College, Belgaum, aspires to be a center of excellence in medical education, research and healthcare at both the national and international level. Located on a 100-acre eco-friendly campus, it boasts modern infrastructure, wi-fi connectivity and a vibrant learning environment. The hostels accommodate over 2,000 students, with amenities like banks, ATMs and shops, conveniently on the campus. A highlight is the state-of-the-art sports facilities, including an Olympic-standard swimming pool, indoor and outdoor stadiums and recreation areas, fostering holistic development. The international convention center, inaugurated in 2014, hosts academic and cultural events, thus enriching campus life.

We installed our Australian-made, acrylic system by Laykold, Official Suppliers to the U.S. Open for their sports' surfacing.

This revolutionary and highly durable surface provides unmatched force reduction technology, is UV-stable, all-weather resistant and an energy-efficient court.

The acrylic surface was meticulously installed on an asphalt base, a combination that significantly enhances the durability and longevity of the court. This setup not only ensures a resilient playing surface but also provides a more forgiving experience for players, reducing strain on their ankles and knees. The acrylic surface is designed to cater to both basketball and volleyball, offering optimal performance for athletes.

Our in-house engineers, installers and design team has an answer for all your sporting needs – be it basketball, volleyball, tennis, athletics, football, cricket or hockey and many, many more. Here's to our love of the sport!
