

# Lycee Francais International School

New Delhi

**Supply and installation of sports surfaces in the French School, New Delhi.**

**Year of project completion:** March, 2023

**Base:** Plain cement concrete

**Surface:** TigerTurf Serenity 30 with 10 mm sine pad for the children's play area, TigerTurf Trophy for multisport and acrylic surface for tennis & basketball

The Lycée Français International de Delhi offers a unique multi-lingual education in the capital city of New Delhi, achieving a very high level of educational excellence through programs endorsed by the French Ministry of National Education. The Lycée Français International de Delhi prepares students for the French Baccalaureate. The school provides a human-centred environment where each student receives personalized attention and tailored support.

Our team has installed multiple sports surfaces for their students as per requirement. Our Australian-made, acrylic system was used for their basketball cum tennis multi-sports court. This revolutionary and highly durable surface provides unmatched force reduction technology, is UV-stable, all-weather resistant and energy-efficient.

TigerTurf Harmony Lite 30, a two-tone thatched yarn, was installed for the elementary area, giving a realistic impression of recently mowed grass. Their elementary play area now resembles a natural playground that is usable 24/7 for the kids. This dense yarn will stand the test of time, remains de-lusted so it doesn't shine in your eyes, and provides a natural, appealing and relaxed look, regardless of the time of day. In addition to the turf, we have installed as an underlay a TigerTurf Sine Pad that is used both as a shock pad and for drainage. It provides a comfortable, cushioning surface that is easier on joints and muscles, and it also increases the longevity of the turf and most importantly, safety to the playing kids.

Our TenCate yarns conform to the best European and US standards and are EN71-3\* certified, implying they pose no risk to young and old, children or pets. The entire turf is free of heavy metals and harmful chemicals. We simply call it our love of the sport!
