

Performyx Gym

Kankurgachi, Kolkata

Supply and installation of turf for gym flooring

Date of project completion: January, 2024

Surface: TigerTurf Trophy on 10mm rubber tiles

Base construction: Plain cement concrete

Performyx is a premium fitness studio and muscle strengthening center located in Kankurgachi, Kolkata. The gym is equipped with modern machines and equipment designed for both functional and customized fitness training. All the coaches at Performyx are certified, well-trained and experienced, enabling them to offer personalized fitness programs tailored to each individual. They also identify students with potential for powerlifting and provide specialized training, giving them thus an opportunity to participate in competitions.

Our first installation in July 2023, an inviting brick-colored TigerTurf Trophy over a rubber tile for extra cushioning and more enhanced sound absorption, was followed up using the same turf in their newest gym. We installed a neutral green TigerTurf Trophy in this dedicated fitness training and warm-up area.

TigerTurf Trophy is a high-performance surface that is certified by FIH National (hockey), ITF (tennis) and AENA (netball). Not only that, it is an exceptionally durable and versatile surface that provides a consistent training performance with firm underfoot traction. Its cushioned and dense character makes it deal also for various fitness activities such as sledge pulling, yoga and aerobics.

Our client was extremely satisfied with the quality of our work, and both the coaches and fitness enthusiasts praised its durability, ease of cleaning, performance efficiency and the aesthetic appeal that enhances the gym's interior design.
